9:00 - 16:00

Introduction to the Design and Conduct of Randomised Trials

In association with the Clinical Research Facility Galway (CRFG), the HRB-TMRN will host an Introduction to the Design and Conduct of Randomised Trials study day on April 17th. This event is targeted at individuals involved or interested in the area of clinical trials and wish to learn more about the basics of trial design and conduct. Invited speakers include representatives from the Clinical Research Facilities / Centres and the Irish Clinical Research Trial Network (ICTRN). Attendance fee €100 full price (€50 for unsalaried students - proof required).

TOPICS INCLUDE

- Overview of clinical trial design
- Sources of bias in randomised trials
- Methods of randomisation
- Core outcomes within trials
- Recruitment to randomised trials
- Common statistical pitfalls and how to avoid them
- Monitoring of accumulating safety and efficacy data
- Evaluating health behaviour interventions
- Running multicentre trials
- Basic data management of trial data
- Economic evaluation alongside trials

LOCATION

Lecture Theatre,
MY 243,
Áras Moyola,
NUI Galway
